The fuel consumption achieved, and CO₂ produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load.

The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and Co₂ figures.

CO₂ figures shown above are for a standard vehicle without any additional optional equipment. The addition of optional extra could increase the certified CO₂ emission output.

On the Road' MRRP includes registration plates and delivery to retailer (including VAT), 12 months' Vehicle Excise Duty and new vehicle registration fee of £55. Excludes fuel and insurance.

All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

PEUGEOT e-BOXER Pricing Breakdown

To make the pricing of our e-Boxer vans as simple as possible, we have provided a basic breakdown below. Please note that the the Plug in Van Grant is applied to the Base Vehicle Price (incl. VAT) including any manufacturer discounts. We have not included any manufacturer discounts in the breakdown below, and so the prices are subject to change based upon any discounts being offered at the time. Please contact your local Retailer to find out about any manufacturer promotions which may impact the amount of PiVG that you can receive, and therefore the overall price of the vehicle.

(1) The range and electric consumption figures mentioned comply with the WLTP test procedure, on the basis of which new vehicles are type approved from 1 September 2018. They may vary depending on actual conditions of use and on different factors such as : speed, thermal comfort on board the vehicle, driving style and outside temperature. The charging time depends in particular on the power of the charger on board the vehicle, the charging cable and the type and power of the charging station used. The fuel consumption achieved, and CO2 produced, in real world conditions will depend upon a number of factors including, but not limited to: the accessories fitted (pre and post registration); variations in weather; driving styles and vehicle load. The WLTP (Worldwide Harmonised Light Vehicles Test Procedure) is used to measure fuel consumption and CO2 figures. All information and prices correct at time of publication, but are subject to change at any time without prior notice (which may occur as a result of matters including, but not limited to, any changes in legislation and/or any changes by the government).

(1) Without driver. Kerb weight is calculated for a European base specification vehicle including oil, water, lubricants, tools, spare wheel and 90% full fuel tank. Weights may change with the addition of equipment.

(2) Maximum indicative payload is calculated as the difference between GVW and kerb weight. However, due to manufacturing tolerances and differences in the specification of UK vehicles, the mass in service figure provides a closer indication of the vehicle weight and therefore enables a more realistic payload to be calculated.

An individual vehicle must be weighed to establish the exact kerb weight and payload applicable to that vehicle. It is the responsibility of the driver to ensure the vehicle is operated within the legal limits

(3) Within limits of GVW.

(4) Maximum recommended towing weight within limits of GTW.

PEUGEOT 3 YEARS OF WARRANTY

All vehicles first registered in the UK and purchased from a UK PEUGEOT Retailer benefit from a PEUGEOT 2 - Year unlimited mileage manufacturer's warranty and a free optional additional 1 year of warranty provided by the PEUGEOT Retailer Network in the UK. This additional warranty carries a mileage limit of 100,000 miles from first registration and is dependent upon the manufacturer's recommended servicing being carried out at the specified time or distance intervals. For full terms and conditions, please consult your PEUGEOT Retailer in the UK. The battery for the new PEUGEOT e-Boxer is guaranteed for 8 years or 100,000 miles for 70% of its charging capacity.

PEUGEOT ASSISTANCE

All new PEUGEOTs come with PEUGEOT Assistance, our breakdown assistance service. Available every minute of the day and night, 365 days of the year, and for you and anyone else driving your PEUGEOT with your permission. Please note that PEUGEOT Assistance provides assistance in relation to vehicle warranty based faults on your PEUGEOT. It does not provide cover for non-vehicle warranty faults such as:

- the use of incorrect fuel, or lack of fuel
- wheel changes, punctured tyres
- instances where keys have been locked inside the vehicle, lost or stolen.
- road traffic accidents

PEUGEOT Assistance is free for the first year and includes European cover, homestart, roadside assistance, vehicle recovery and a free replacement car or hotel accommodation if required. PEUGEOT Assistance can be extended for a further 12 or 24 months, or to protect you against non-vehicle warranty fault incidents, at specially discounted rates for PEUGEOT owners by calling 0870 752 7050. Call charges to this number from landlines and mobile networks may vary. For more information please contact your phone provider.
