

# Movano Car Transporter 2009 Models Edition 1

# MOVANO CAR TRANSPORTER

Based on the long wheelbase chassis cab model, Roadload's Movano Car Transporter is both practical and versatile. Its VB air suspension system – complete with set ride height – allows the rear of the vehicle to be lowered, providing an excellent approach angle and enabling ease of loading from short, stowable ramps. Backed by a full Vauxhall three-year/100,000 mile warranty on the chassis cab itself, the transporter features a lightweight aerospace aluminium body which helps keep the kerbweight low, boosting payload, while a wide range of options include a Champion 8500lb power winch with hand-held controller, plastic belly locker and a fascia operated light box.
