Clever storage. Luggage hook on nearside of luggage compartment.

FlexDoors®. Not just clever, but altogether safer and ergonomically efficient, Meriva's rear doors open the other way. So it's easier for everyone to get in and out – with improved roadside safety. And simpler to ensure the kids are seated safe and secure.

Parent-friendly. Wider access makes it easier to lift young children in and out of the car and secure them safely into a child seat. And if you open both front and rear doors, it creates a parent-friendly zone where it's easier to control children as they step in and out of the car. The FlexDoors® system has even been proven to reduce leaning and twisting when getting in and out of the vehicle, helping to reduce back strain.
