WELCOME

At Vauxhall Special Vehicles, we believe we understand the unique requirements of the UK Emergency Services. We can deliver a wide choice of car and van models, specifically designed and rigorously tested to meet your demands. Our flexible production facility is able to offer a one-stop shop purchasing experience so we can supply turnkey vehicle solutions that enable rapid turnaround of replacement products, plus we can now offer a unique in-house de-commissioning and re-marketing service.

This range brochure gives a brief overview of our products and services. Our dedicated website (www.vauxhallspecialvehicles.co.uk) contains comprehensive details including individual product sheets, demonstrator vehicles and Quote Requests Templates to help you understand our range availability.

MOVANO PROTECTED SUPPORT UNIT

Built around the award-winning Movano, our PSU (Protected Support Unit) is strong and versatile. It's unique, modular design can be adapted to suit any operational situation. An extensive range of options lets you tailor the vehicle to meet your exact requirements.

Standard features include:

- Fully modular floor tracking system with M1 certified mounting points
- O/S overhead storage shelf incorporating individually switchable lighting
- Additional interior white and red lighting, for low light level adaption prior to deployment
- 11.5mm 5-ply 'anti-bandit' windscreen with anti-spall film and high strength steel mesh drop guard operated from the vehicle cab
- Polycarbonate load area glazing fitted with contravision material to prevent viewing into the vehicle
- Spray-on interior lining for the load area for 360° protection with half-height polycarbonate panels for added protection
- Tyron® run-flat tyre bands
- Powder coated steel guards for the vehicle radiator and engine underside
- Secondary battery with split-charging facility

profile lights R

police psu door closed

Optional features include:

- Climate control incorporating air-conditioning and heating
- Information/entertainment monitor
- Additional control panel to operate auxiliary equipment from the load area as well as the cab
- 240V inverter for appliances and multiple 12V auxiliary sockets for varying equipment
- Single and double width, fixed or foldable tables
- Choice of single or 2-person prison cell incorporating supplementary cell lighting and ventilation all controlled from the vehicle load area (Cell compliant to OEM EC17 luggage retention (56kph) crash test)
- Choice of ready developed rear solutions including storage for both Armadillo and round shields as well as kit bags or bespoke solutions with mounting points for various OEM equipment
- Additional door catch for side loading door
- Additional check straps for cab and rear, hinged doors
- Roof protection (tested to withstand a 44kg tetrahedron weight dropped from a height of 2.8m)
- Additional head lamp and tail lamp poly carbonate protection
- Fire suppression system for engine bay operated from cab
- Sprung loaded bolts for access doors for added security

MOBILE COMPUTING

Our bespoke data/communications systems provide a discreet solution to MDT (Mobile Data Terminal) product storage, with sensitive equipment stored safely and securely in the vehicle glovebox.

This allows officers to record information at the scene of an incident, reducing the need to return to central office in order to file reports.

Standard features include:

- Choice of Rugged laptop or Rugged tablet notebook
- Specially designed docking solution fitted in the glovebox
- Integrated WLAN (WiFi/3G/4G) and Bluetooth® to allow for access and data transfer
- Long battery life for mobility with continuous charging when docked and the vehicle is in use
- USB ports for external device plug and play

Optional features include:

- Centrally integrated 8.4-inch repeater screen, graphic or touch sensitive
- Additional USB rugged keyboard mounted in the passenger footwell

Terrafix® TVC 3000

- Specially developed along with the Vauxhall New Insignia for Ambulance fleet RRVs.

police KME web screen

OUR EMERGENCY PACKAGE

Technology

Our vehicles are geared towards the latest directives for emergency vehicles. We were the first to develop an SVA (Single Vehicle Architecture) model – New Insignia – and the latest stage of our Astra development is fully compliant with the CiA447 protocol, another **industry first**.

Duty of Care

All components are rigorously tested to ensure they meet the highest standards of occupant and pedestrian protection. Equipment within the head impact area is designed in line with the theoretical 'H-point' principle, enhancing visibility and comfort while eliminating the possibility of items intruding in to the occupant's area in the event of a collision.

police toughbook

Economy

Our one-stop shop supply solution eliminates the need for unnecessary on-costs, such as additional vehicle movements to auxiliary equipment suppliers.

Quality

Wherever possible, all components are designed, tested and manufactured using our own in-house facilities and workforce. Parts sourced from third-party suppliers are purchased by GM and meet stringent OEM (Original Equipment Manufacturer) standards of safety and quality.

Remarketing

All equipment fitted is designed to have as little impact on the vehicle as possible, promoting ease of decommissioning and ensuring the highest resale value. This has the added benefit of prolonging the life of the vehicle (see page 22 for more details).

AFTERSALES SUPPORT

At Vauxhall Special Vehicles we recognise the importance of keeping your fleet running at all times and getting vehicles that have been taken out of service back on the road as soon as possible. For this reason aftersales and technical support is critical.

Vauxhall have two dedicated Northern and Southern Corporate Customer Care Managers, who work alongside a specially trained Technical Assistance Manager, to help support your fleet.

We have also worked to utilise Vauxhall's extensive dealer network to help support you when a vehicle is off the road. We have a special

training curriculum run from the GM Academy in Luton specifically to help dealer technicians receive comprehensive training for Bluelight equipment, as well as a special Service Level Agreement that a number of dealers have signed up to.

Replacement parts ordering is also accounted for with a special process for ordering both base vehicle and bluelight parts to ensure that new items are turned around as efficiently as possible.

All this helps to ensure vehicle repairs are dealt with in a professional and timely manner while maintaining the highest standards of workmanship and vehicle security whilst the vehicle is in our care.

For maintenance and upkeep that you may wish to carry out in your own dedicated workshops we offer a range of workshop manuals and wiring diagrams to assist you in diagnosing and repairing your vehicles.

SPECIAL VEHICLE DEMONSTRATORS

As well as our dedicated fleet of civilian demonstrator vehicles, which can be used to test and evaluate the base vehicle, Vauxhall Special Vehicles also offers a range of bluelight demonstrators for assessing the vehicles under operational conditions.

To confirm the availability of vehicles and to book your demos please contact your regional sales manager or the Vauxhall Special Vehicles administration team for further details.

Please note all demonstrators are offered for resale after approximately six months service and can be reserved for future purchase.

REMARKETING

A first for emergency vehicles

We recognise that Fleet Managers are under increasing pressure to maximise efficiency and reduce the cost of sourcing vehicles. The decommissioning and remarketing of such vehicles can exert a particular drain on resources.

Our new Vehicle Remarketing Service can be tailored to your individual requirements, reducing your administrative burden while promoting the reuse of high value vehicle equipment.

The process typically works like this:

- Fleet Manager contacts VSV advising vehicle ID to remarket
- VSV arranges collection and transports to decommissioning centre
- MoT and service carried out (if required)
- Unwanted parts removed and agreed items held for reuse or returned
- Repairs carried out, vehicle prepared for auction
- Vehicle auctioned
- Financial administration concluded

As well as providing a choice of options when it comes to preparing the vehicle for resale, we also offer a range of flexible administration and financial solutions. These can include the Fleet Manager retaining all existing administration duties and receiving the resale proceeds from auction or, alternatively, minimising direct involvement, with the resale proceeds used to discount the cost of new vehicles.

To discuss the options in more detail please speak to your Vauxhall Special Vehicles Sales Manager.

THE FACTS

Range Details: Fuel economy and emissions data

Official Government Environmental Data. Fuel consumption figures mpg (litres/100km) and CO₂ emissions.

Official Government Test Environmental Data. Official EU-regulated test data is provided for comparison purposes and actual performance will depend on driving style, road conditions and other non-technical factors.

† = The "Combined/weighted" fuel consumption/CO₂ figures for Ampera are calculated from two test results: one with the battery fully charged and the other when the battery is discharged. The two test results are a weighted average, taking into account mileage range on battery power only, providing a representative figure in a variety of charge conditions. Extended range is achieved by 1.4 litre 16-valve VVT ECOTEC® petrol engine generating electricity.

Demo Vehicles

We have a range of Special Vehicles, suitably-liveried, which can be made available for assessment purposes under operational conditions.

In addition we have an extensive demonstration fleet of civilian cars and vans available to test drive.

To confirm availability and book your Demo vehicle please call 01525 408320.

Please note that our Demo vehicles are usually offered for sale when they have been in service for six months.

Vauxhall Lifetime Warranty

We're so confident in Vauxhall quality and reliability that we are now able to offer a lifetime warranty. Available to the first owner of all new Vauxhall passenger cars, it's valid for the lifetime of the vehicle up to a maximum of 100,000 miles†. In addition, our warranty also includes Vauxhall Assistance for 12 months from first registration and six years body panel anti-perforation warranty. Full details of Vauxhall's warranties including terms, conditions and exclusions can be obtained through any authorised Vauxhall retailer or go to: www.vauxhall.co.uk/warranty
